

Make a Penguin puppet with Stuff and Nonsense

What you will need...

Masking tape

Newspaper – approx. 2 sheets

Thin card – an old cereal box would be ideal

Yoghurt pot – ideally from a large/grown up's yoghurt, rather than a child's

Paints & paintbrushes, or felt tip pens – you'll need black and orange

Scissors

Glue stick or UHU

Googly/wiggly eyes – optional, eyes can be drawn/painted on if not available

Black card, fabric or felt

Bamboo stick – approx. 15cm or short stick from the garden, or paintbrush with slim handle could be used instead

Many of the above items can be found around the house and recycled. We would encourage you to use found items rather than buying new.

We hope you have a brilliant time making your puppet, making more puppets in the future and creating a magical icy world for you all to play in together!

We'd love to see what you create, if you'd like to share any photos or films with us please do so using the social media links below. Let your friends know about us, and maybe try one of our other 'How to' videos: making a different puppet or a Catchy Song. Enjoy!
